## Operation on streets and highways

ATVs may be operated only on streets and highways designated and posted as an ATV road by the government agency having jurisdiction over that road.

An ATV may make a direct crossing of a street or two-lane highway if:

- The crossing is made at an angle of approximately 90 degrees to the direction of the highway and at a place where no obstruction prevents a quick and safe crossing;
- The ATV is brought to a complete stop before crossing the highway;
- The driver yields the right-of-way to all oncoming traffic that constitutes an immediate hazard;
- The crossing of a divided highway is made at an intersection of that highway with another street or highway.

ATVs may be operated on streets or highways during periods of emergency, if declared by the jurisdiction, or when necessary to cross a bridge or culvert.

## Operation during special events

ATVs may be operated on highways and streets for special events of limited duration approved by the local authority having jurisdiction over those roadways.

## Operation on private property

It is illegal to ride your ATV on private property without permission from the landowner.

## Operation on state-owned property

Designated ATV trails on State Forest lands are open from the Friday before Memorial Day through the last full weekend in September. Some ATV trails reopen for winter use in conjunction with the snowmobile season from the day following the last day of the regular or extended deer season through April 1, conditions permitting. Check with the District Forester to be sure that winter use is permitted. The trail also may be open to snowmobiles.

Only Class I ATVs may be operated on State Forest trails designated for ATV use. Class II ATVs may be operated on State Forest land ONLY if the trail is specifically posted open to Class II ATVs of a particular width and weight.

State Forest roads are NOT open to ATVs.

State Parks and State Game Lands are NOT open to ATVs.

- A brake system capable of producing deceleration of 14 feet per second at a speed of 20 miles per hour;
- A muffler in good working order. The sound intensity produced by an ATV may not exceed 99dbA (decibels), when measured at 20 inches;
